DATE: November 6, 2006

Application No.: 09/927,075

Art Unit: 2617

Title: Architecture for converged broadband wireless communications

Dear Mr. Genack:

In my response to your office action on October 18th, 2006, I wrongly enclosed additional "Amendment to Claims" of another patent application by mistake. Please just accept the first two pages of my "Amendment to Claims" response and ignore the remaining three pages.

To make it clear, I resend the CORRECT "Amendment to Claims" response as enclosed.

I apologize for this mistake.

Thank you for your time.

Yours truly,
